

SAFEGUARDING

Did you know? – 1 in 5 internet users in the UK are children. It is important to keep children safe online.

WATCHING VIDEOS

Children love to watch videos and YouTube is a favourite! But sometimes children can be exposed to videos that are not meant for them. [YouTube Kids](#) is safer for children. You can find more information about this on [YouTube: what parents need to know](#).

Remember, primary-age children should be supervised at all times when online.

SHARING PICTURES

Using devices like phones and tablets to share pictures and videos can be a great way for children to have fun and stay in touch with friends and family. It's really important your child knows what's ok to share online and what they should check with you first.

Read [younger children sharing pictures or videos online](#) for more information on the risks and how to support safer sharing.

NSPCC

The NSPCC has an excellent website with resources to support parents and children to keep safe online.

<https://www.nspcc.org.uk/keeping-children-safe/online-safety/>

THINKUKNOW

Thinkuknow is the education programme from the National Crime Agency's Child Protection Command CEOP (NCA-CEOP) whose aim is to protect children and young people from sexual abuse online.

For more information, visit their [parents website](#) and download their [home activity worksheets](#) for fun things to do with your family.
