Year 3 - Term 2 - 2026/2027

Welcome to Term 2! We have had an amazing start to the school year. It has been great getting to know all your wonderful children.

A new term is already upon us, and we are very proud of our progress through school year so far. We are very excited to continue our learning journey into Term 2.

Please make sure you continue log onto Class Dojo each week to check for updates and to see all your amazing work!

Authors

As authors, we will be reading A Winter's Child by Angela McAllister. We will be using a range of exciting adjectives conjunctions and fronted adverbials.
We are going to use our great oracy skills to discuss, retell and act out our story. Ask us all about our book at home – I am sure we will be very excited to discuss it with you!

Mathematicians

As mathematicians, we will be deepening our knowledge and understanding of numbers within 1000. We will be learning about addition, subtraction, multiplication and division. We are always keen to use our strategies... I wonder if we can teach you at home!

Historians

As Historians we will be learning all about the Tudors. We will be perfecting our skills as Historians: learning to assess sources, debate positive and negative impact, looking at significant people, generating questions and undertaking historical inquiry.
We will be using a range of new vocabulary to explain our learning as historians!

Athletes

This term, our young athletes will be taking part in:
- Real PE on Mondays
-Robins on Thursdays
Please ensure your children are wearing their PE kits on these days.

Designers

This term in designers we will be learning about textiles. We will be learning how to thread a needle, tie basic knots and sew patterns into cloth.

Citizens

In Jigsaw, we will be learning about relationships and life as an EPA citizen.

We will be accepting that everyone is different, learning about the word 'inclusion' and discussing the use of kind words.

Please feel free to contact us with any questions regarding our learning.

At home learning

Please listen to your child read at home 5 times per week. This is the most important thing you can do to support learning at this age.
Just 5 minutes per day makes a big difference.

Scientists

This term in Scientists, the focus will be on Physics, specifically Earth and Space Science.

The children will have a chance to discover more about our world and the surrounding universe.
We will be conducting field work and experiments, understanding different types of rocks. We will have the chance to be creative and show off our knowledge of Earth and Space. This learning follows on from Term 1 learning about the Earth as a giant magnet.

Yours sincerely,
Ms Wicks - year 3 class teacher
